Is it time to replace that equipment?

We have all heard that saying "April showers bring May flowers". What does that mean to you? Going "Green" may never be easier. April & May are the best two months of the year to do some Spring Cleaning. Remove those old worn out washers and tumblers and invest in your business with "Green" products from CLEC.

April is the deadline for the Unimac Energy rebate!! Don't miss out of purchasing the most "Green" washer extractor available in the industry – the Unimac TV model -

Advanced, energy-efficient design provides ongoing savings of up to \$1,800 per year.

- Super-High G-Force technology removes substantially more water than conventional designs, reducing drying times and lowering gas consumption by 30-35%.
- Efficient fill and rinse technologies reduces water use by as much as 27% compared to competing models.
