CLEC has been awarded the Cissell® brand for OPL in Florida, Alabama and Georgia.

We feel this is a great compliment to our existing lines of IPSO® and Alliance®.

Cissell® Manufacturing Company has been an industry leader in the design and innovation of commercial laundry equipment. The result of their unwavering commitment to building durable, reliable and affordable high quality commercial drying tumblers and washer extractors was a perfect fit for CLEC.

Cissell Adds Three to Washer Extractor Lineup.

Cissell recently added a trio of new sizes to its washer extractor lineup to better serve the on-premises laundry market. Additions to Cissell's hardmount line include 18-, 25- and 75-pound washer extractors.

"These new models help Cissell provide a much broader range of washer extractor options for on-premises laundries in a variety of industries," said Dave Phillips, national sales manager of the Cissell brand. "In addition, our new washer extractor sizes are designed to provide years of reliable operation - like all Cissell commercial laundry equipment."
