## Run Your Laundry Like You Run Your Business

Finding new ways to increase operational efficiency and reduce expenses in all areas of your business is a challenge you face every day. With TotalVue™ Powered by UniLinc™, you can take laundry off the list of things to worry about. TotalVue gives you complete visibility of previously immeasurable performance indicators that significantly affect your overhead, including labor, utility and linen costs, allowing managers and executives to make immediate adjustments that significantly impact the bottom line.

### THE EASIEST WAY TO MANAGE YOUR LAUNDRY

- Unmatched visibility of your entire laundry operation anytime, from anywhere.
- Easy to set up. Easy to access. Easy to use.
- Easy-to-navigate interface makes access to information quick and simple.
- Access to reports from any and all web-connected and mobile devices.
- Real-time, simultaneous viewing and reporting across multiple locations.
- Flexibility to export reports to a device, send via email or print when and how often you want them for continual monitoring.

- Your laundry room efficiency – based on the cost to process one pound of laundry. You can now easily identify locations that are performing below your efficiency targets in order to take prompt corrective action and set improvement benchmarks.
- Diverse performance indicators that are calculated and updated in real time, allowing you to establish goals, and make immediate, proactive adjustments that impact your bottom-line.
- Reports that can be viewed through the TotalVue website, exported to a device and printed or automatically emailed at times and frequencies specified by individual users for flexible and continual monitoring.
- TotalVue Dashboards that can be run for the specific timeframe you are looking to monitor –whether it is a day, week, or year for unmatched visibility of your laundry operation.
- Machine identification – the reports give a complete list of all the machines at each property.
